Red Lists Updated for 2019

Dear Governor Sununu:

In accordance with *RSA 234:25-b Inspection of Red List Bridges: Report*, enclosed please find the 2019 submittal of state and municipal Red List bridges, compiled by the New Hampshire Department of Transportation. For your use and reference, enclosed please find copies of these 2019 Red Lists, which are based on inspection data gathered through December 31, 2019. This information shows that during the 2019 inspection cycle the number of State Red List bridges decreased from 129 to 125, and the Municipal Red List increased from 241 to 243.

As required, copies of this letter and the Red List information will be distributed to other elected officials and to the municipalities, via email and/or paper copies. Additional bridge data, including State and Municipal Red Lists, can also be found on the NHDOT Bridge Design web page at <http://www.nh.gov/dot/org/projectdevelopment/bridgedesign/documents.htm>. All bridge inspection data is gathered in accordance with the National Bridge Inspection Standards (NBIS), per Federal Highway Administration (FHWA) regulations.
